SunSmart Policy Statement

Rationale

Queensland has the highest rate of skin cancer in the world. Of all new cancers diagnosed in Australia each year, 80 per cent are skin cancers. Given sporting events often take place during peak ultraviolet radiation (UVR) times throughout the day, sporting organisations play a major role in both minimising UVR exposure and providing an environment where policies and procedures can positively influence long-term SunSmart behaviour.

Skin damage, including skin cancer, is the result of cumulative exposure to the sun. Research shows severe sunburn contributes to skin cancer and other forms of skin damage such as sunspots, blemishes and premature ageing. Most skin damage and skin cancer is therefore preventable.

With this in mind, **MACKAY ATHLETICS CLUB** realises the need to protect athletes, committee members, organisers, officials, coaches or spectators (these athletes from here on will be referred to as 'members') from the sun and educate them about SunSmart behaviour, thus reducing the risk of skin damage from overexposure to the sun.

Aims

The policy aims to:

- Provide ongoing education that promotes personal responsibility for skin cancer prevention and early detection;
- Provide sporting environments that support SunSmart practices; and
- Create an awareness of the need to reschedule events, where possible, to support SunSmart practices.

Procedures

Our club/organisation recognises that winter sun also contributes to skin damage. The implementation of this policy will be ongoing throughout the year.

The purpose of this SunSmart policy is to ensure all members, committee members, organisers, officials, coaches or spectators of this sporting organisation are protected from the harmful effects of the sun throughout the year.

Our Commitment

The club/organisation will:

- Inform individuals about the organisation's SunSmart policy when they apply for membership;
- Provide SPF 30+ broad-spectrum, water-resistant sunscreen for members, committee members, organisers, officials, coaches or spectators;
- Follow The Cancer Council Queensland guidelines for SunSmart clothing when choosing, designing or redesigning uniforms;
- Where possible, hold training sessions and competitions at venues that provide adequate shade for members;
- Provide suitable shade structures for events where existing shade is not adequate for members and encourage spectators to bring their own portable shade structures;
- Promote SunSmart behaviour through posters and information brochures;
- Provide ongoing education about skin cancer prevention and early detection and minimising time spent outside during peak UV periods;
- Encourage all coaches, trainers and adult members of the club to act as positive role models for younger members in all aspects of SunSmart behaviour by:
 - Wearing appropriate hats and clothing for all outdoor activities;
 - Using SPF 30+ broad-spectrum, water-resistant sunscreen;
 - Seeking shade whenever possible; and
 - Encourage members who do not bring hats to utilize shaded areas where possible;
- Regularly reinforce the SunSmart policy through newsletters, committee meetings and club activities; and
- Review the SunSmart policy annually.

Our Expectations

Members and spectators will:

- Be aware of the organisation's SunSmart policy, having been informed about it upon registration;
- Take responsibility for their own health and safety by being SunSmart;
- Comply with SunSmart rules and guidelines by wearing suitable hats, clothing, sunscreen and sunglasses;
- Apply SPF 30+ broad-spectrum, water-resistant sunscreen 20 minutes before going
- Use shaded or covered areas, where possible, when spectating and during breaks;
- Help to design and regularly update the SunSmart policy; and
- Act as positive role models for other members and spectators in all aspects of SunSmart behaviour.
